

REChurch

When Change Is No Longer an Option

To everything there is a season. That was clear even as the words were written by Solomon thousands of years ago. We know that as summer approaches, sweaters get packed away and short pants are pulled from their boxes. The reason is simple: it would be foolish to dress for winter when it's 92 degrees outside.

The same principles hold true for the church. As the environment changes and it is a new time in the Kingdom, the church – especially its leadership – must be prepared for the season at hand.

In this compelling volume, world-renowned pastor Bishop Eddie L. Long and esteemed “dream releaser” Dr. Samuel R. Chand join forces to help church leaders update their thinking to create a more effectual body of Christ.

If you are a pastor or a leader in your church, this book is a must-read. Delve into *Re-Church* and begin to understand the church's need to re-contemplate the vision using these approaches:

- *Re-tooling*
- *Re-ordering*
- *Re-connecting*
- *Re-structuring*
- *Re-covering*

Leadership is an honor, but it's also a responsibility. Read *Re-Church* today and share a copy with other church leaders you know. From the usher to the Sunday School teacher, from the deacon to the pastor, change has to happen individually for it to occur corporately. Get on one accord and get Re-Churched!
